

# Stem Cells Made Simple

## *Introduction*

The explosion of knowledge that mankind has witnessed over the last several decades is absolutely astonishing. History has validated the immense capacity of our world to achieve things that are often unimaginable to the human mind. Until recently, we did not know how to unleash the regenerative ability of the human body. We have only managed our degeneration and illnesses, primarily with surgeries and drugs, leaving millions living with chronic health issues.

Consider that when the male and female DNA combine, and a new life takes root in the mother's womb. At that very time, there is an explosion of life, of stem cells, the cells that hold the blueprint for human life. Cells that create a beating heart in a mere 4 weeks and construct a complete perfect infant in 9 months. Consider the complexity of this creation.

Could this rich source of stem cells hold the key?

Stem cell therapy is the process of harnessing that creative power to activate your bodies internal repair system. They are a natural regenerative tool. They are the wave of the future. We have good news to share with you today: the future of medicine is here. All the experts agree that stem cell therapy is the future of medicine and could even be the future of your personal health and longevity.

## *What if you could be YOUNGER and STRONGER for LONGER?*

Does this sound too good to be true? The promise of stem cell therapy is real, and even as you read these pages, thousands upon thousands of people just like you are benefiting from regenerative medicine and stem cell therapy. There have been tens of thousands of stem cell therapies performed, and the amazing results that real people are experiencing are incredible. We will share some of their stories with you and you will hear in their own words how stem cells have improved their health and their lives. Stem cells require no instruction manual. Regeneration is encoded in their DNA and they know how to multiply, rebuild, and repair.

With medical costs rising and people suffering from an ever-increasing number of stress and lifestyle induced health challenges, it is essential that we find simpler ways to help people live happier, healthier, and more productive lives. When it comes to protecting your health, as well as your family's health, the choices are really quite simple: You can choose the agenda of our current culture (dependency on medications and invasive surgeries, to name a couple) or you can choose to adapt a mind-set of prevention and be proactive in your steps when it comes to your health.

Throughout life, stems cells are produced in the marrow of our bones, however, the umbilical cord which extends from the navel at birth houses a multitude of rich regenerative stem cells – the Master Cells of our Body! The answer to disease and degeneration is regeneration and we now know how to activate your body's internal repair system.

We want to free you from the fear that some virus or disease will devastate you and that getting old means your body must break down. You do not have to lose your mobility, your freedom, or your ability to live. We want to ignite the possibility of a healing revolution in your life, and we truly believe that regeneration begins in your mind. Instead of expecting and believing that degeneration will happen to us, we can renew our minds and release our faith to the belief that the power that created the body is the power that heals the body. You

are miraculously and marvelously made! Healing and regeneration are encoded in your DNA. We want you to be well and to live out your life with lasting health.

*“The POWER That Created YOUR BODY is the POWER That HEALS Your Body.”*

We designed Stem Cells Made Simple to take the complicated, controversial, and often confusing subject of stem cell therapy and make it easy to learn, easy to understand, and easy to access. If you want to learn if stem cell therapy can benefit you or someone you love, then open your mind, open your heart, and continue to read. In our experience, people will recognize and resonate to the truth. We desire to impart a powerful truth into your life that the rest of your life will be the best of your life.

*“The REST of YOUR LIFE Will Be the BEST of YOUR LIFE.”*
